(22) Filed: **Jan. 19, 2021**

(57) **CLAIM**

(80) **Hague Agreement Data**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

Int. Filing Date: **Jan. 19, 2021**

DESCRIPTION

Int. Reg. No.: **DM/213748**

Int. Reg. Date: **Jan. 19, 2021**

Int. Reg. Pub. Date: **Jul. 23, 2021**

(51) **LOC (14) Cl.** **14-04**

- 1. Display screen with animated graphical user interface
- 1.1 : Front
- 1.2 : Front
- 1.3 : Front
- 1.4 : Front

(52) **U.S. Cl.** **D14/488**

(58) **Field of Classification Search**

USPC **D14/485-495**

CPC **G11B 27/022; G11B 27/031; G11B 27/10**

See application file for complete search history.

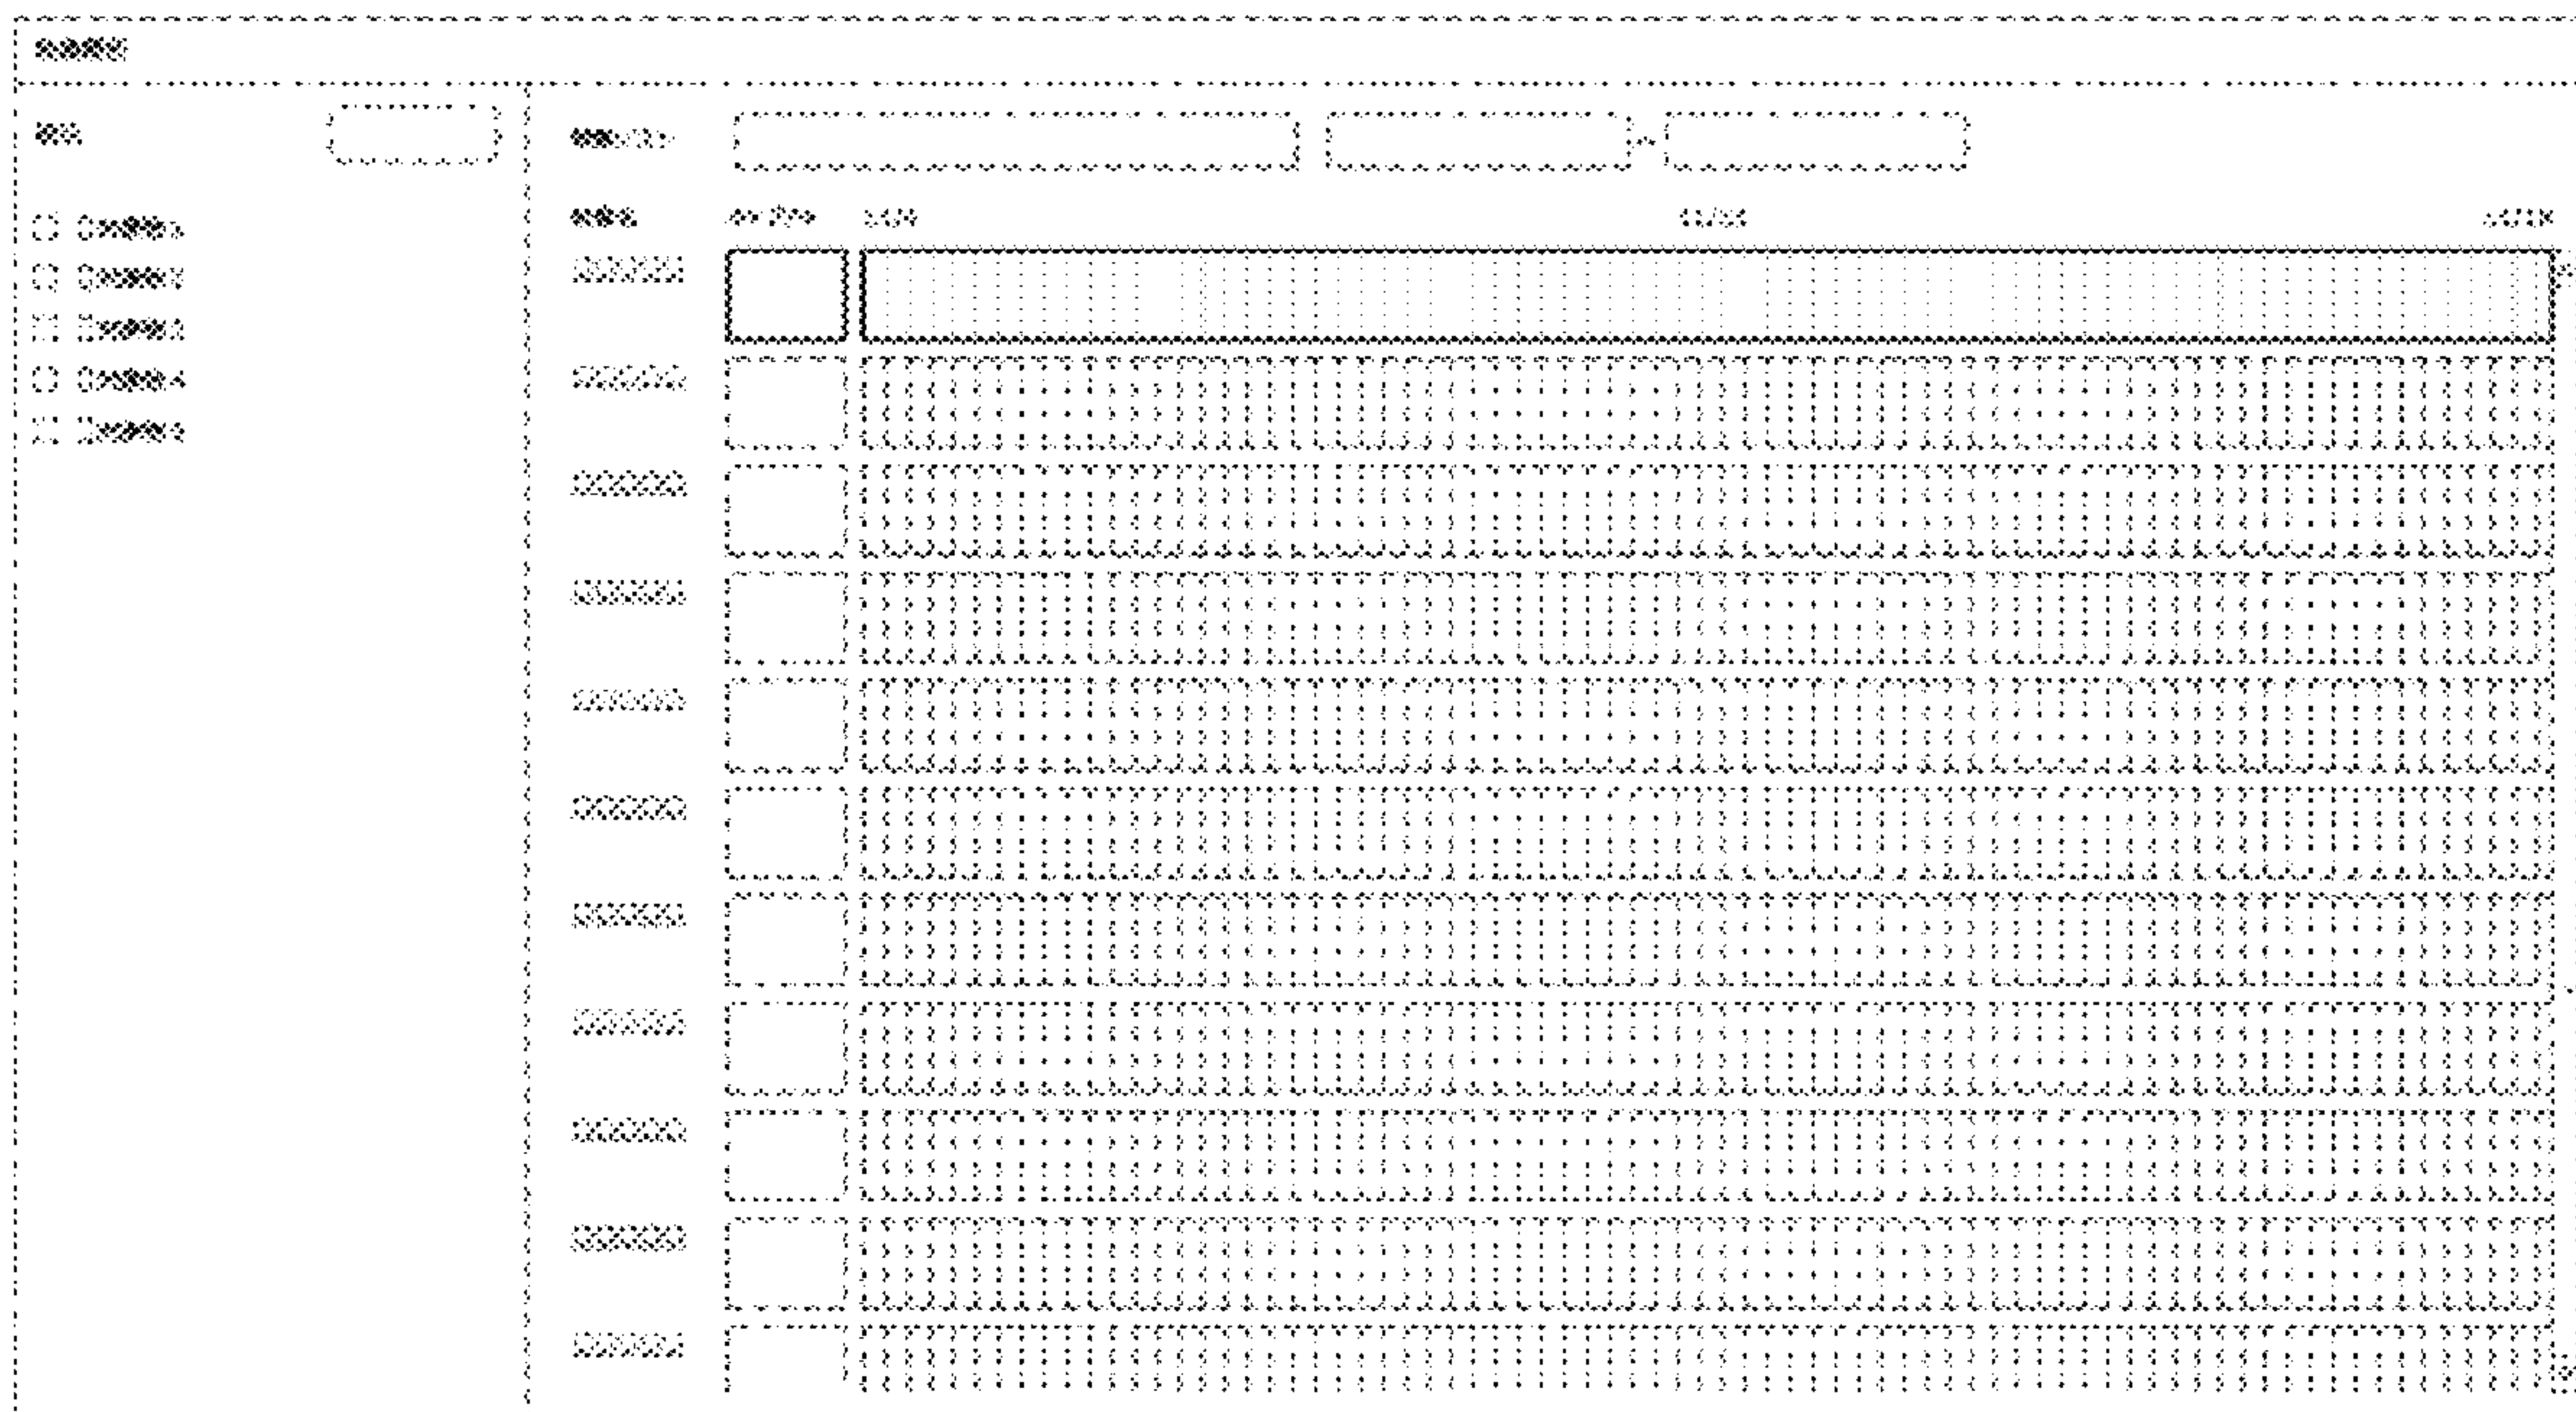

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1.1 to 1.4. The process or period in which one image transitions to another image forms no part of the claimed design. Reproduction 1.1 is the figure showing the state before change; and reproductions 1.2-1.4 are the figures showing the state after change; the broken lines depict portions of the display screen with animated graphical user interface that form no part of the claimed design.

1 Claim, 4 Drawing Sheets

1.1

The image shows a technical drawing of a data table, enclosed in a dashed border. The table is organized into several sections:

- Header Section:** At the top, there are several boxes and labels. On the left, there is a label "No." followed by a box. To the right, there are labels "NAME", "DATE", and "TIME".
- Table Grid:** The main body of the table consists of a grid of cells. The first column contains numerical values ranging from 000000 to 000009. The subsequent columns are filled with a dense pattern of small, illegible characters, likely representing data points or a barcode-like structure.
- Legend:** On the left side of the table, there is a legend with five entries, each consisting of a small square followed by a label: "000000", "000001", "000002", "000003", and "000004".

1.2

The image shows a highly degraded and low-resolution scan of a table or data grid. The table is enclosed in a dashed border and contains several rows and columns. The text within the table is illegible due to the low resolution and heavy noise. The table appears to have a header row followed by approximately 10 data rows. The columns are also indistinguishable. The overall appearance is that of a very poor quality scan of a document page.

1.3

The image shows a table with a header row and approximately 10 data rows. The header row contains several columns, with the first column being the widest. The data rows contain text that is completely illegible due to the low resolution. The table is enclosed in a dashed border.

1.4
