Primary Examiner — Bao-Yen T Nguyen

(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

2. Display screen with animated graphical user interface

2.1: Front, first image in a sequence

2.2: Front, second image in a sequence

2.3: Front, third image in a sequence

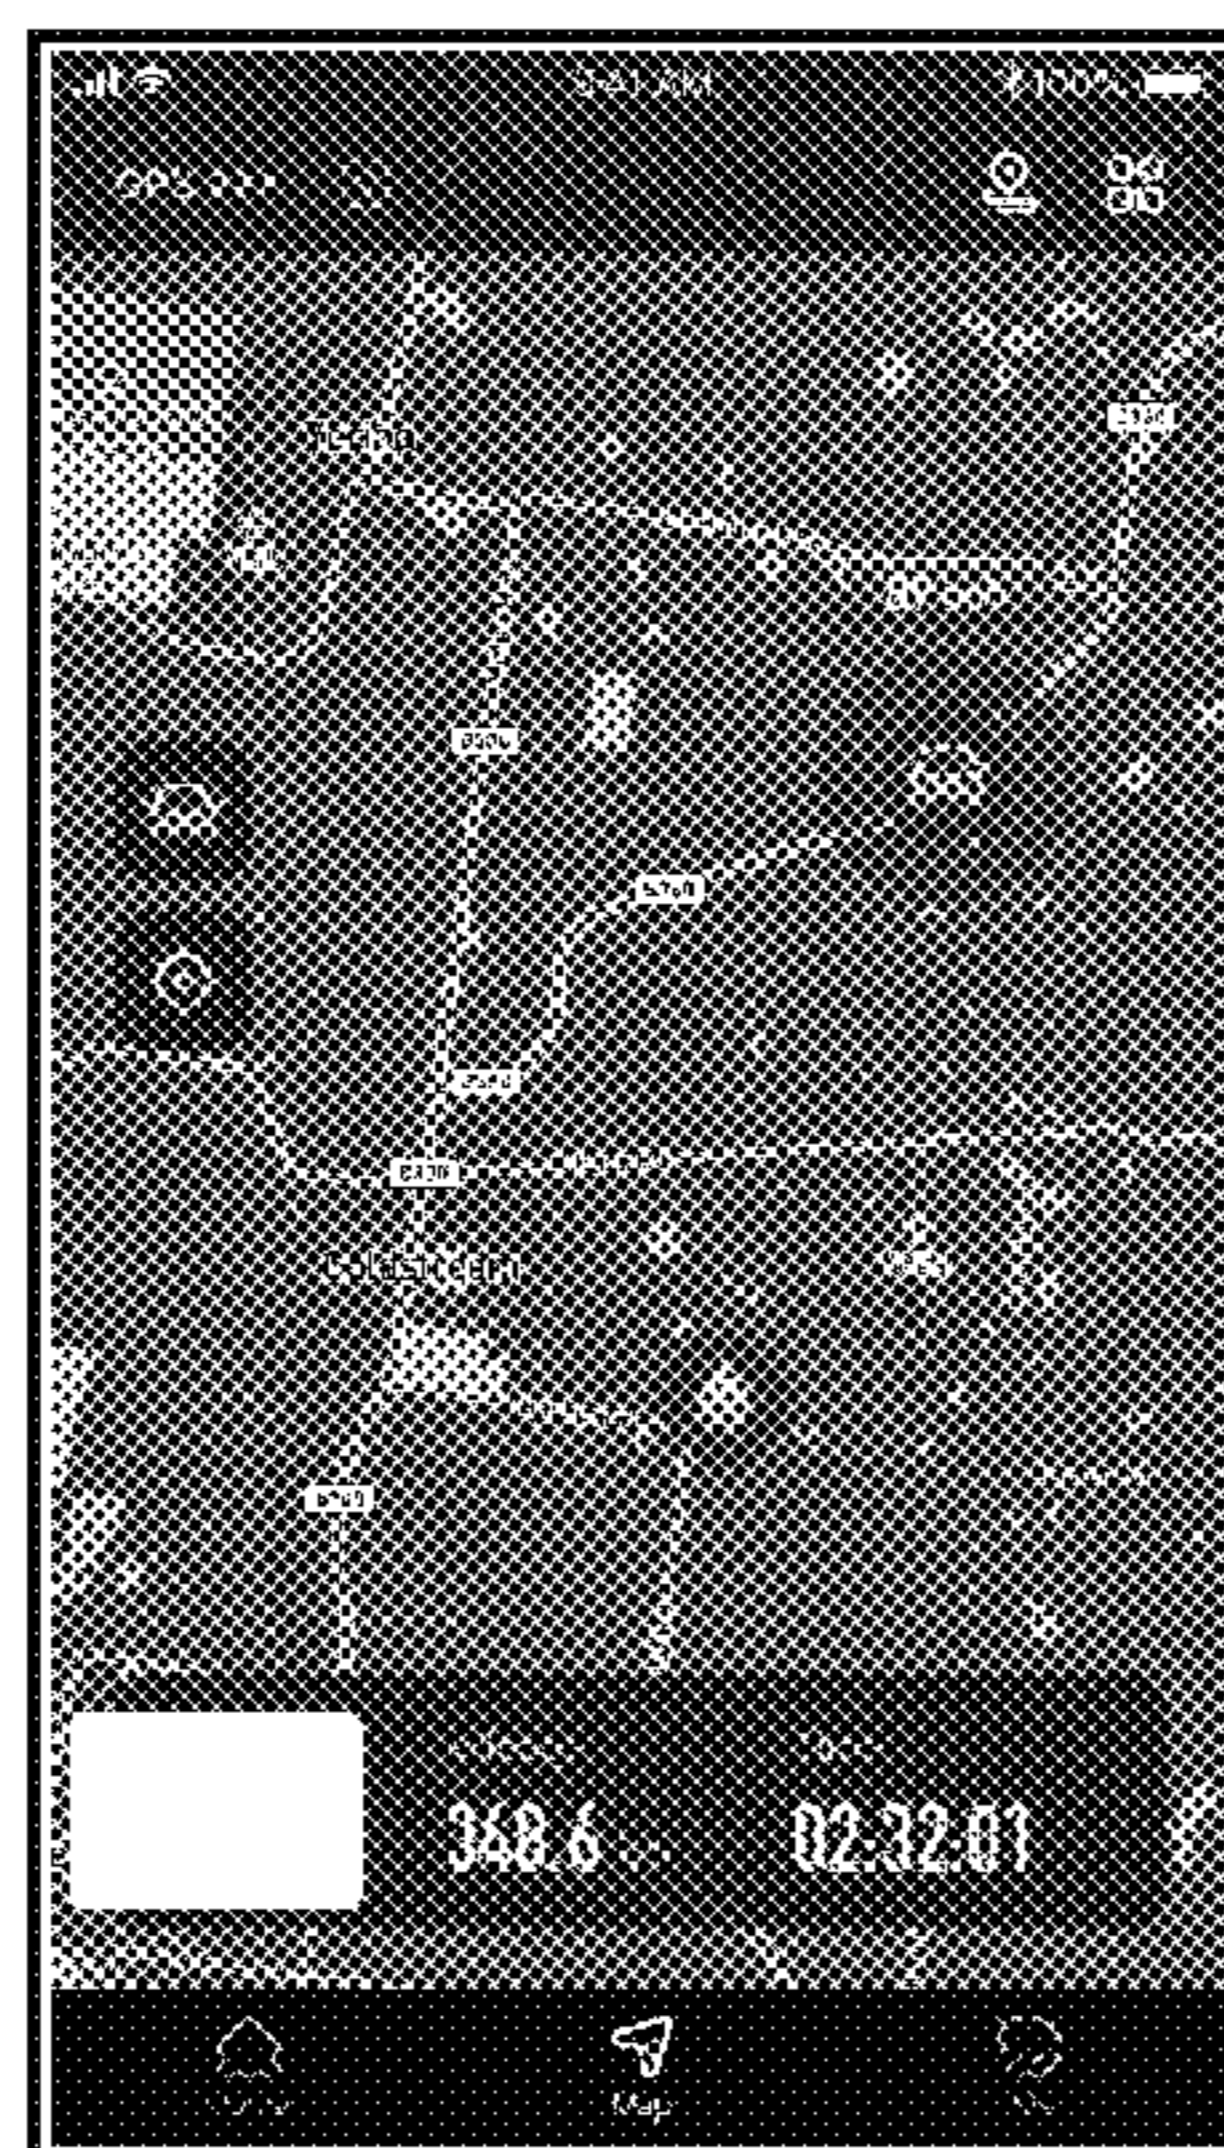

2.4: Front, fourth image in a sequence.

Design 2 is an animated graphical user interface, in which the appearance of the animated image sequentially transitions between the images shown in reproductions **2.1** to **2.4**.

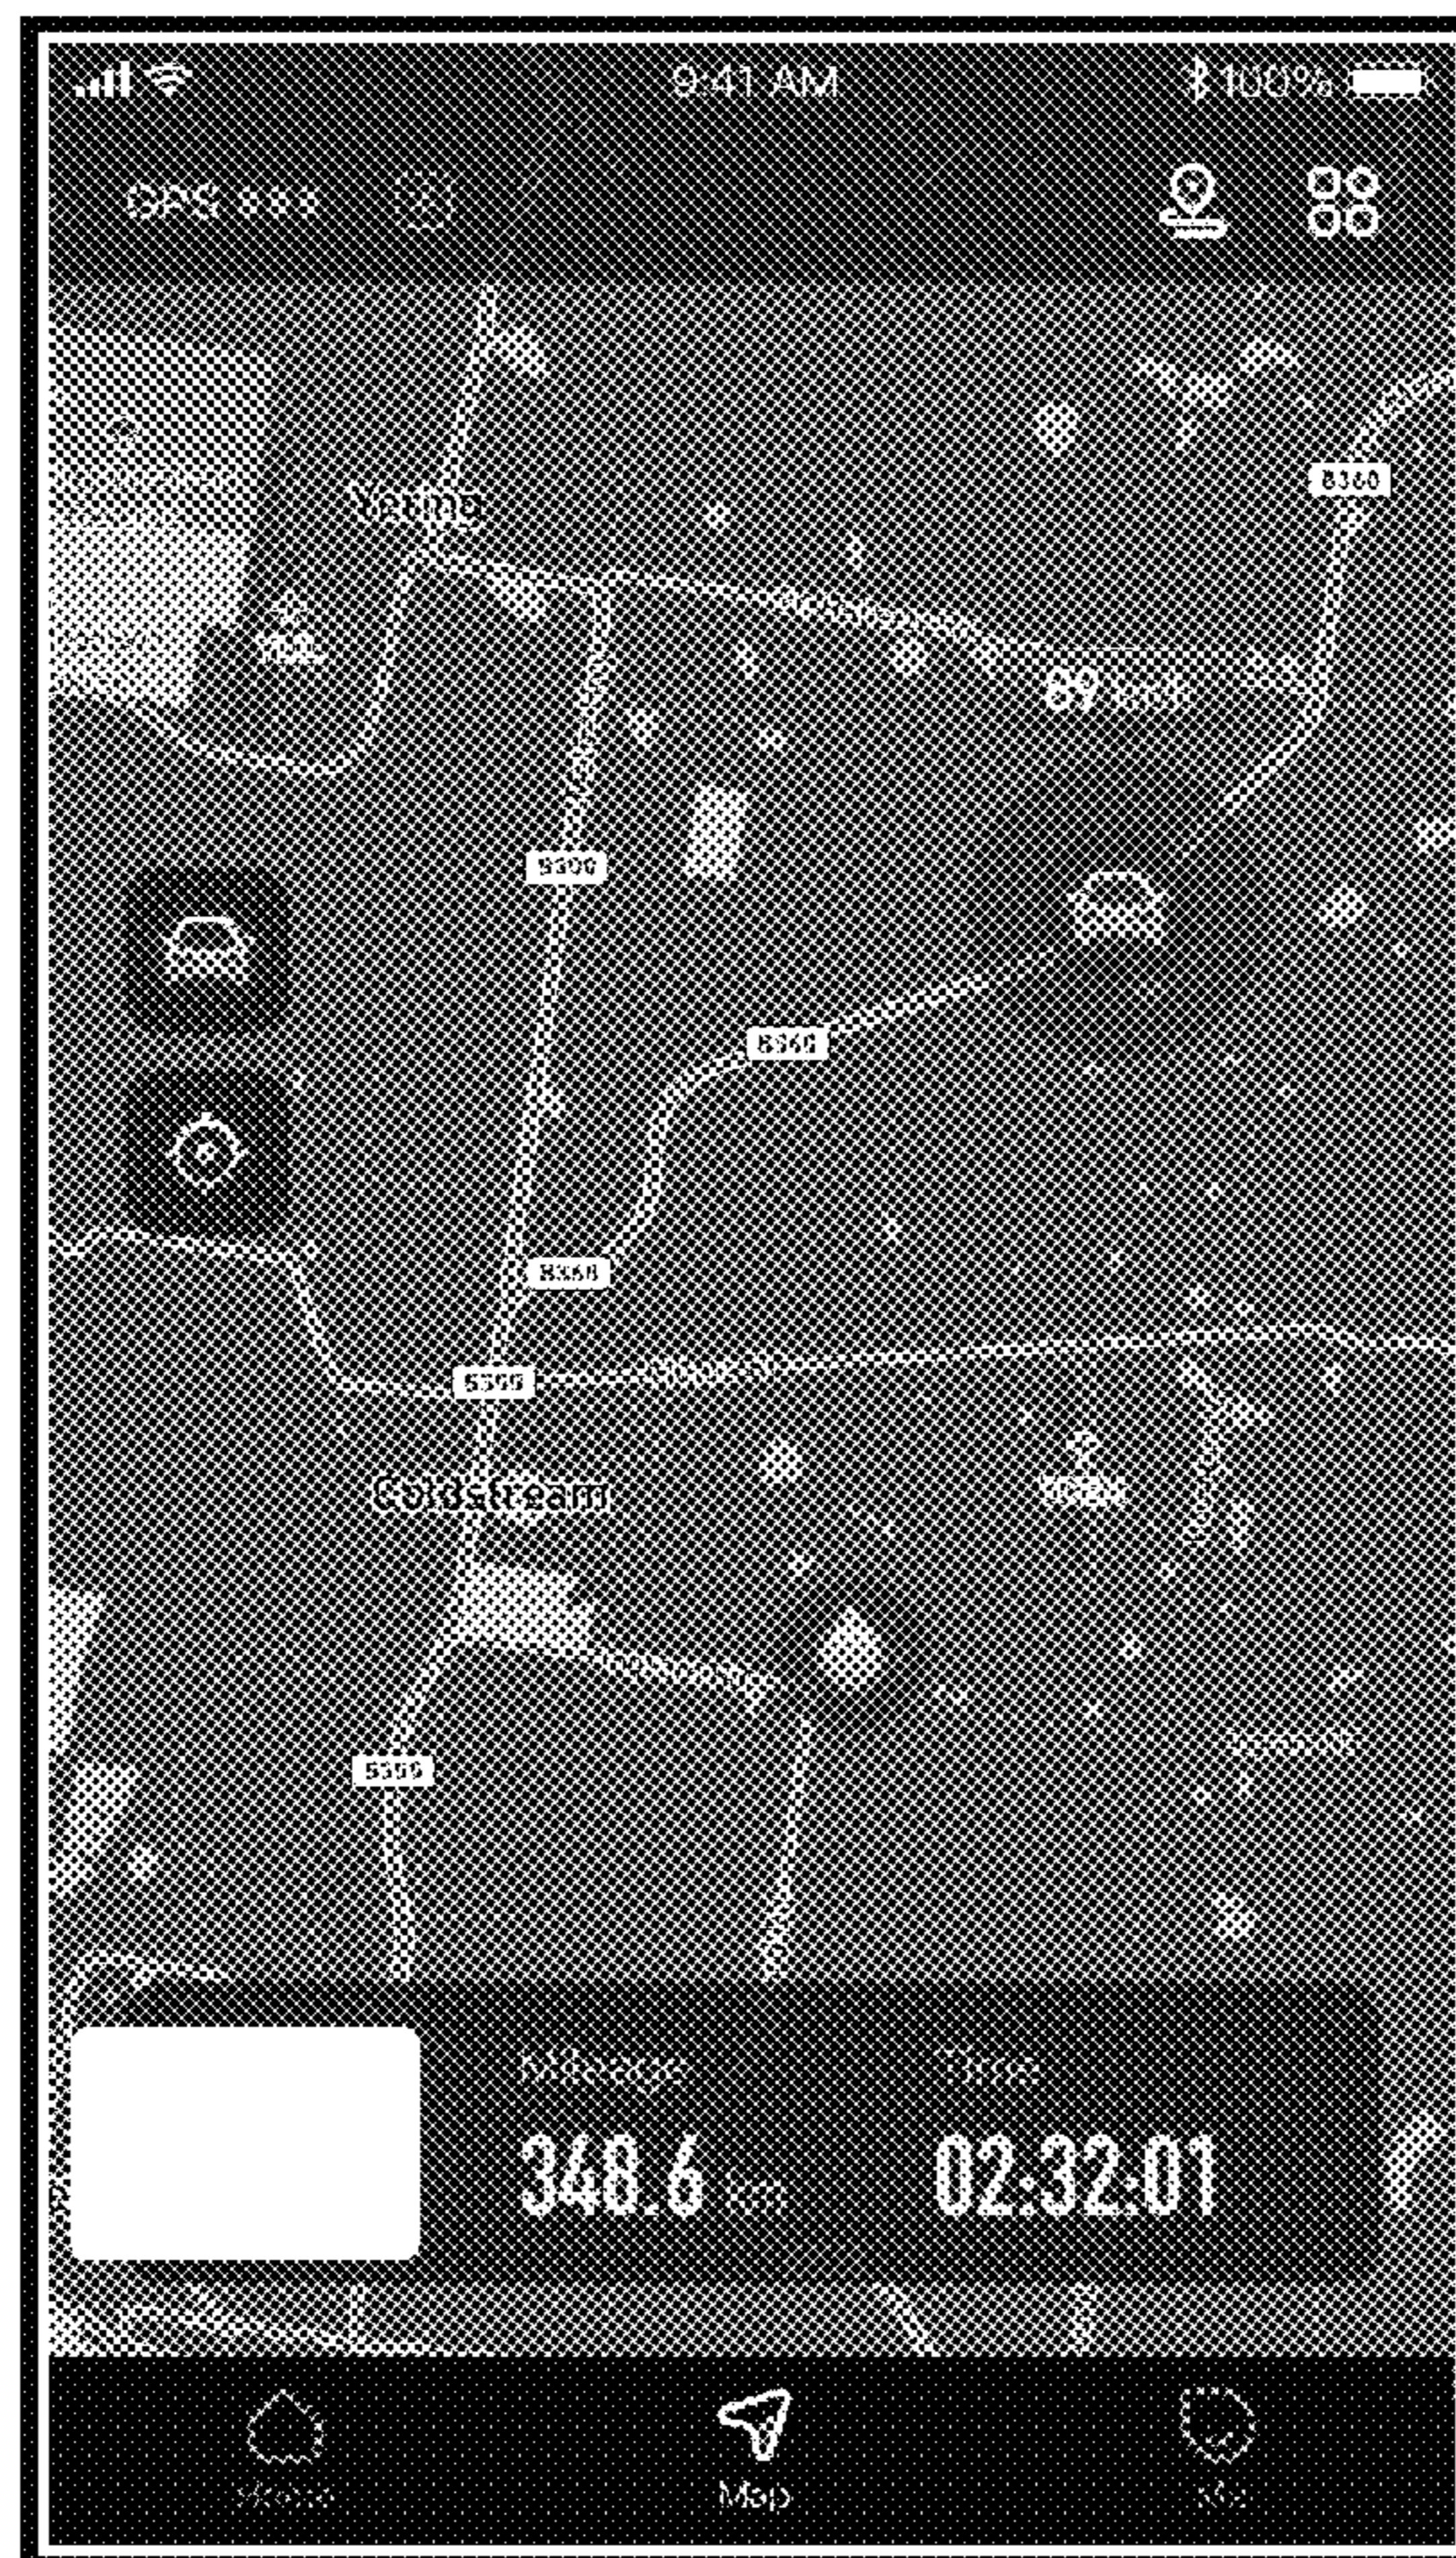

The process or period in which one image transitions to another forms no part of the claimed design. Reproduction **2.5** is a reference view showing the state in use of the claimed design and form no part thereof.

The outer edge of the portion of the display screen is understood to be congruent with the outer edge of the graphical user interface.
