(57) **CLAIM**

The ornamental design for a tool handler, as shown and described.

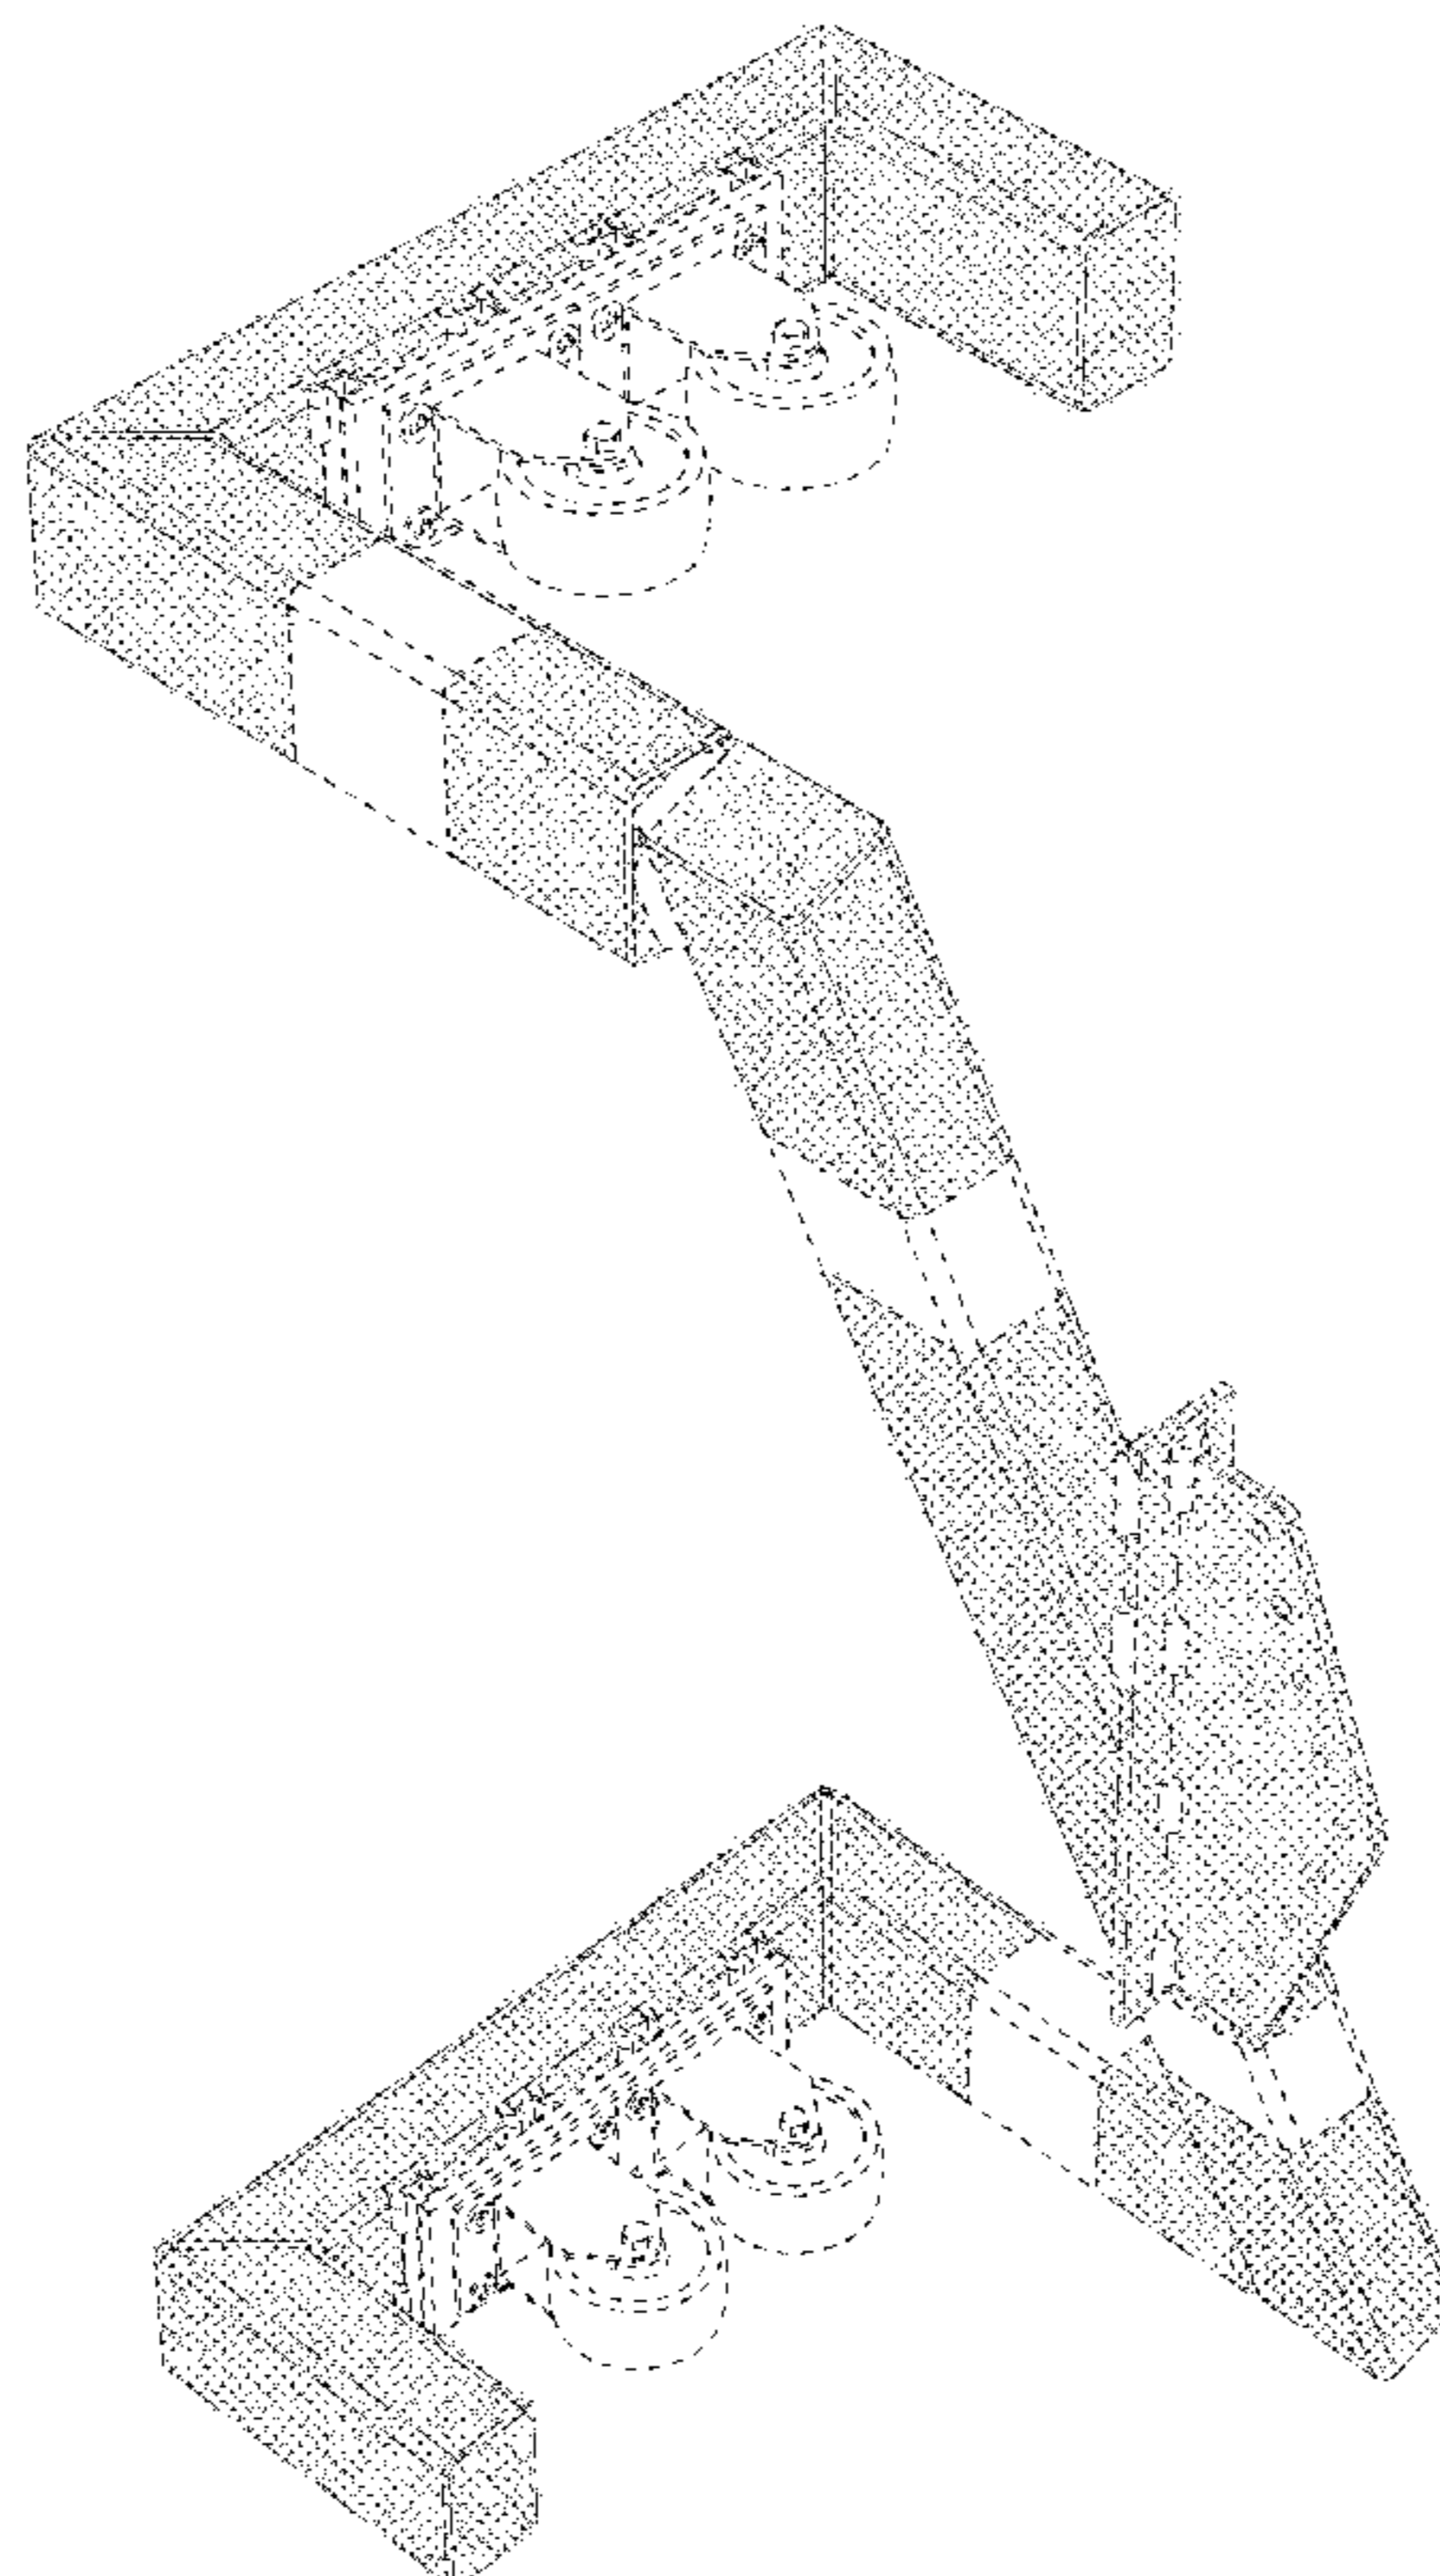

DESCRIPTION

FIG. 1 is a perspective view of a tool handler showing my new design;
FIG. 2 is a front view thereof;
FIG. 3 is rear view thereof;
FIG. 4 is a left side view thereof;
FIG. 5 is a right side view thereof;
FIG. 6 is a top view thereof; and,
FIG. 7 is a bottom view thereof.

The broken lines illustrate portions of the tool handler that form no part of the claimed design.

The tool handler is shown with symbolic breaks in its length. The broken line sections, namely, (i) the broken line section along the upper member, (ii) the two broken line sections along the angled central member, and (iii) the broken line section along the lower member, all represent variable lengths of each member of the tool handler. The appearance of any portion of the article between the break lines forms no part of the claimed design.
