(57) **CLAIM**

The ornamental design for an electronic device with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface showing the claimed design; FIG. 2 is a front view of a display screen or portion thereof with graphical user interface showing the claimed design in a differing broken-line environment; FIG. 3 is a front view of a display screen or portion thereof with graphical user interface showing the claimed design according to a second embodiment; FIG. 4 is a front view of a display screen or portion thereof with graphical user interface showing the second embodiment in a differing broken-line environment; and, FIG. 5 is a front view of an electronic device having a display screen with the graphical user interface of FIG. 1 applied to the display screen. The graphical user interface designs of FIGS. 2-4 may be similarly applied thereto. The outer broken lines in the figures show a display screen or portion thereof, or an electronic device having a display screen, and form no part of the claimed design. The other broken lines in the figures show portions of the graphical user interface that form no part of the claimed design.
