(57) **CLAIM**

The ornamental design for a display screen with a transitional graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of the first image in a sequence for a display with a transitional graphical user interface; and, FIG. 2 is a front view of a second image thereof. The broken lines shown in the Figures illustrate a display screen and form no part of the claimed design. The broken lines illustrate portions of the graphical user interfaces and form no part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another image forms no part of the claimed design. The various cross-hatched lines shown in the boxes in the Figures indicate relative different colors of the boxes, but otherwise forms no part of the claimed design.
