The ornamental design for a tire, as shown and described.

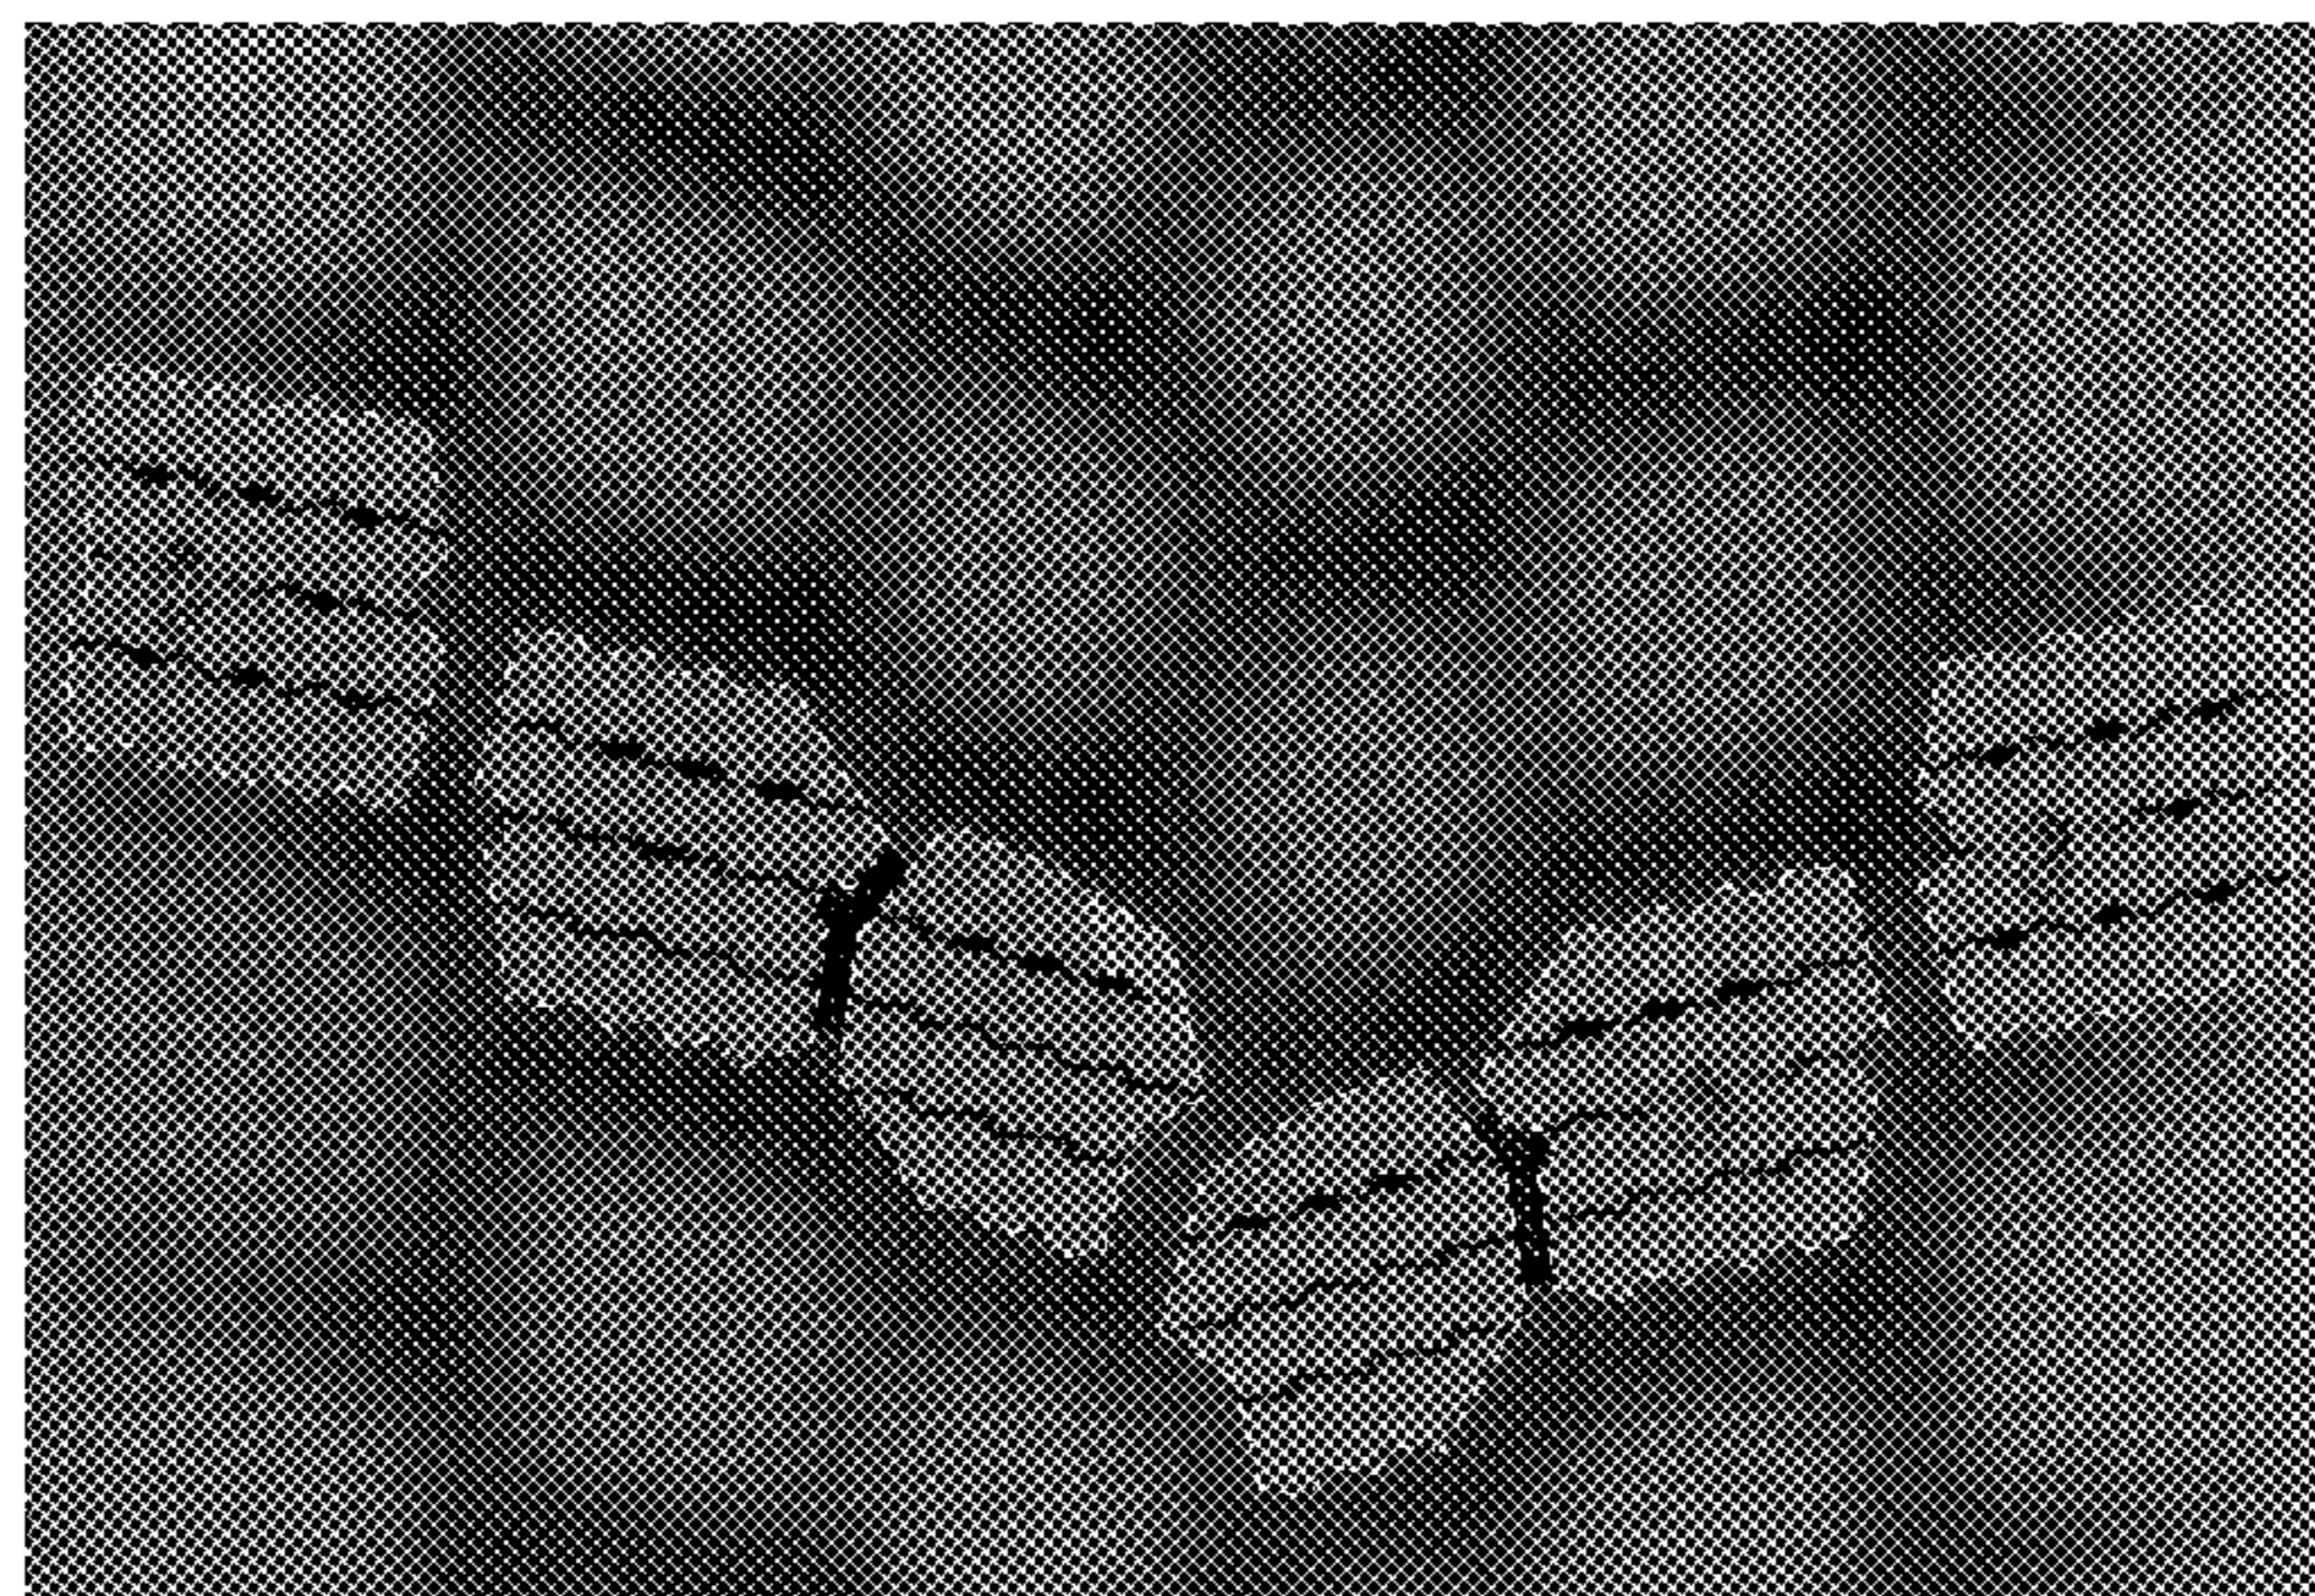

DESCRIPTION

FIG. 1 is a front view of a tire showing our new design; and, FIG. 2 is a partial, enlarged view thereof.

The drawings include shadows and reflections which indicate contour, not surface ornamentation.

The peripheral black broken lines outline the portion of the design that is illustrated in the enlargement. The relatively thick, light broken lines within the peripheral black broken lines illustrate boundaries which form no part of the claimed design. The relatively thin, light broken lines and the portions therein illustrate portions of the tire which form no part of the claimed design. The blurred portions in the drawings form no part of the claimed design.
