(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a display screen with graphical user interface showing a first image of an animation sequence of the graphical user interface according to the claimed design. FIG. 2 is a front view of the display screen with graphical user interface showing a second image of the animation sequence of the graphical user interface. FIG. 3 is a front view of the display screen with graphical user interface showing a third image of the animation sequence of the graphical user interface. FIG. 4 is a front view of the display screen with graphical user interface showing a fourth image of the animation sequence of the graphical user interface. FIG. 5 is a front view of the display screen with graphical user interface showing a fifth image of the animation sequence of the graphical user interface. FIG. 6 is a rear view of the display screen with graphical user interface. FIG. 7 is a top view of the display screen with graphical user interface. FIG. 8 is a bottom view of the display screen with graphical user interface. FIG. 9 is a left side view of the display screen with graphical user interface; and, FIG. 10 is a right side view of the display screen with graphical user interface. The dash-dot-dash broken lines showing the display screen and the dash-dash broken lines showing the graphical user interface illustrate portions of the display screen with graphical user interface that form no part of the claimed design. The appearance of the graphical user interface sequentially transitions between the images shown in FIGS. 1 - 5. The process or period in which an image transitions to another forms no part of the claimed design.
