(57) **CLAIM**

The ornamental design for a display screen or portion thereof with a graphical user interface, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material which is subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but otherwise reserves all copyright rights whatsoever.

The FIGURE is a front view of a display screen or portion thereof with a graphical user interface showing the claimed design.

The long-short broken line around the FIGURE shows an unclaimed boundary of the graphical user interface and of a display screen or portion thereof and forms no part of the claimed design. The even-length broken lines within the FIGURE shows portions of the graphical user interface that form no part of the claimed design. The broken lines depicting text, letters, characters, and numbers within the FIGURE shows portions of the graphical user interface that form no part of the claimed design.
