(57) **CLAIM**

The ornamental design for display screen or portion thereof with graphical user interface for clinical practice guidelines, as shown and described.

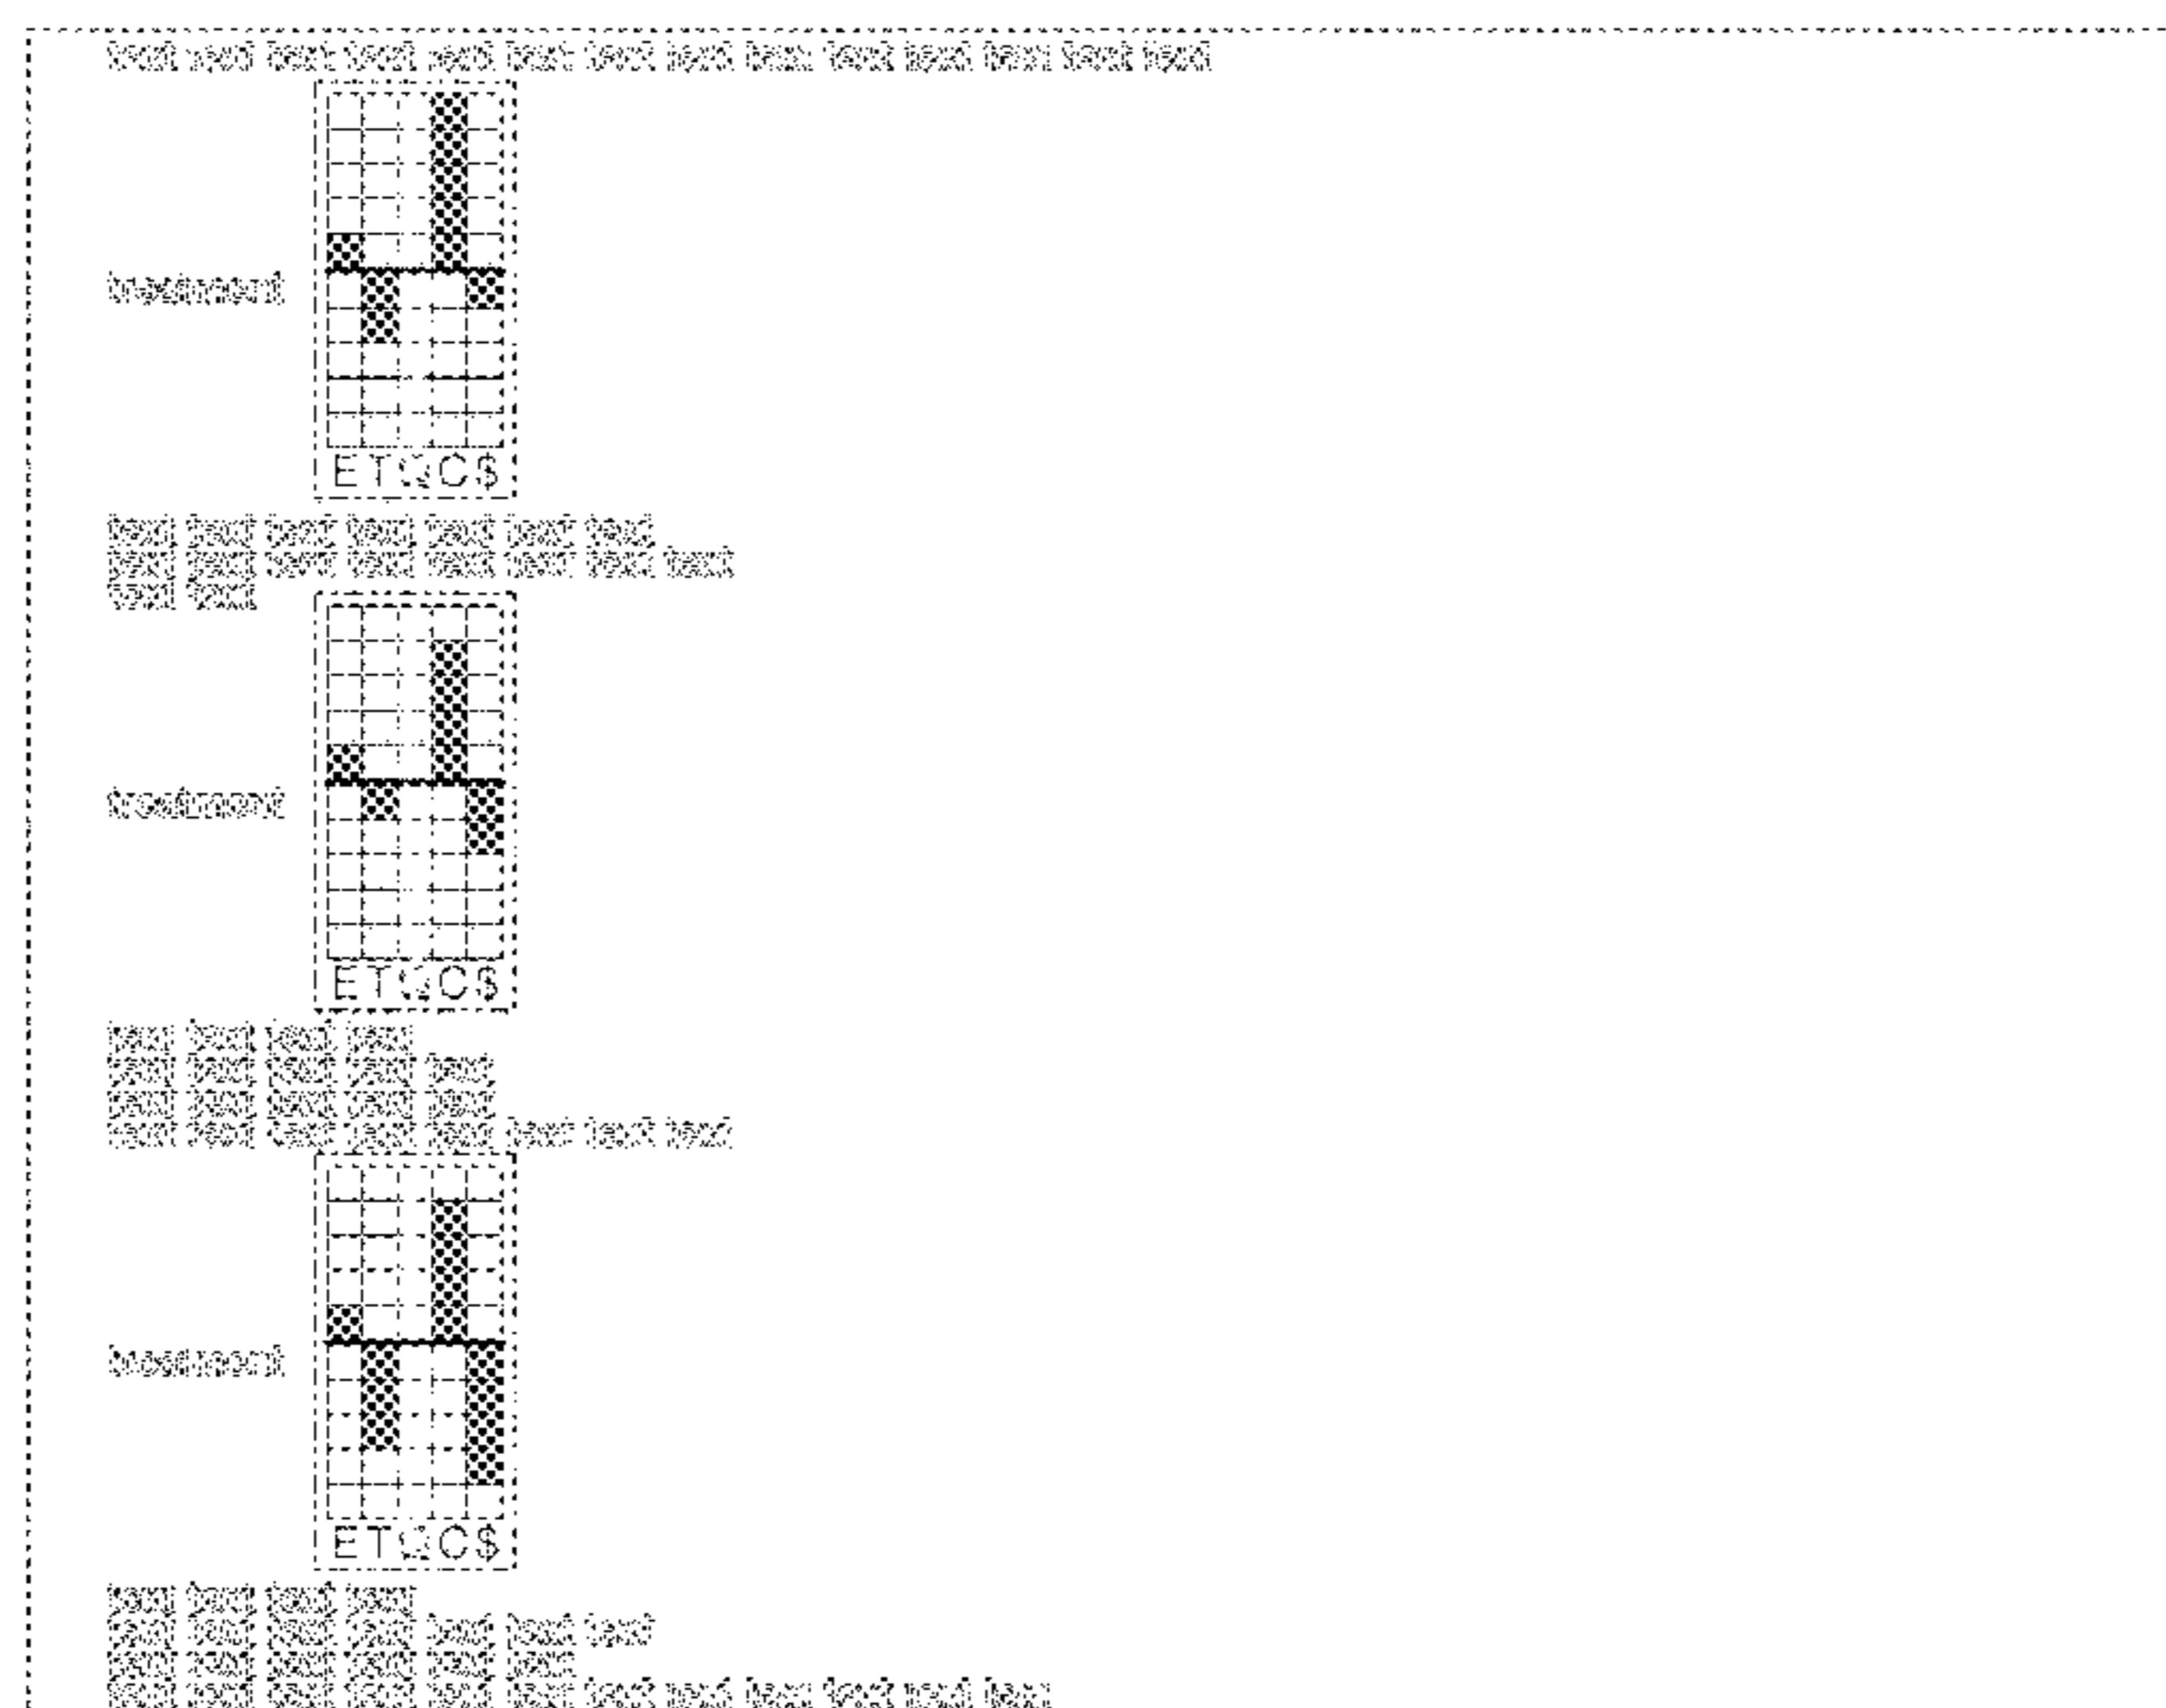

DESCRIPTION

FIG. 1 is a front view of a display screen or a portion thereof with graphical user interface for clinical practice guidelines in accordance with our new design; and,

FIG. 2 is an enlarged view of the area indicated with dot-dot-dashed boundary lines in FIG. 1.

The dotted broken lines showing portions of the graphical user interface and the display screen or portions thereof represent environmental structure and form no part of the claimed design. The dot-dot-dashed broken lines represent boundaries and form no part of the claimed design. Elements shown outside of the rectangular dot-dot-dash boundaries form no part of the claimed design. The arrangement of the solid lines within the different boundaries forms part of the claimed design. The graphical user interfaces are arranged as shown for convenience of illustration. The relative arrangement of the graphical user interfaces form no part of the claimed design. Subject to the foregoing, the claim is directed to the collective appearance of the set of graphical user interfaces shown.
