(57) **CLAIM**

The ornamental design for a reticle, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a reticle showing my new design at a first magnification with an optical medium of a firearm optical sight provided in broken lines;
FIG. 2 is another front view of the reticle at a second magnification lower than the first magnification with an optical medium of a firearm optical sight provided in broken lines;
FIG. 3 is another front view of the reticle with an optical medium of a firearm optical sight and a firearm optical sight provided in broken lines; and,
FIG. 4 is a perspective view of an environment for use with the reticle for an optical medium.

The broken lines showing of the optical medium in FIGS. 1 and 2 are for illustrative purposes only and form no part of the claimed design. The broken lines showing of the optical medium and the environmental structure of a firearm optical sight in FIG. 3 are for illustrative purposes only and form no part of the claimed design. The additional broken lines showing the environmental structure seen beyond the reticle in FIG. 3 are for illustrative purposes only and form no part of the claimed design. The broken lines showing the environmental structure of a firearm optical sight in FIG. 4 are for illustrative purposes only and form no part of the claimed design.
