CLAIM

The ornamental design for a portion of a display panel with transitional graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of the first image of a portion of a display panel with transitional graphical user interface; FIG. 2 is a front view of a second image thereof; FIG. 3 is a front view of a third image thereof; FIG. 4 is a front view of a fourth image thereof; and, FIG. 5 is a front view of the fifth image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-5. The process or period in which an image transitions to another forms no part of the claimed design.

The broken line showing portions of the transitional graphical user interface in FIGS. 1-4 form no part of the claimed design.

1 Claim, 3 Drawing Sheets
