(57) **CLAIM**

The ornamental design for a vehicle front headlamp, as shown and described.

DESCRIPTION

FIG. 1 is a frontside perspective view of the vehicle front headlamp residing on a passenger-side of a vehicle;

FIG. 2 is a front view thereof;

FIG. 3 is a right side view thereof;

FIG. 4 is a left side view thereof;

FIG. 5 is a top view thereof;

FIG. 6 is a bottom view thereof;

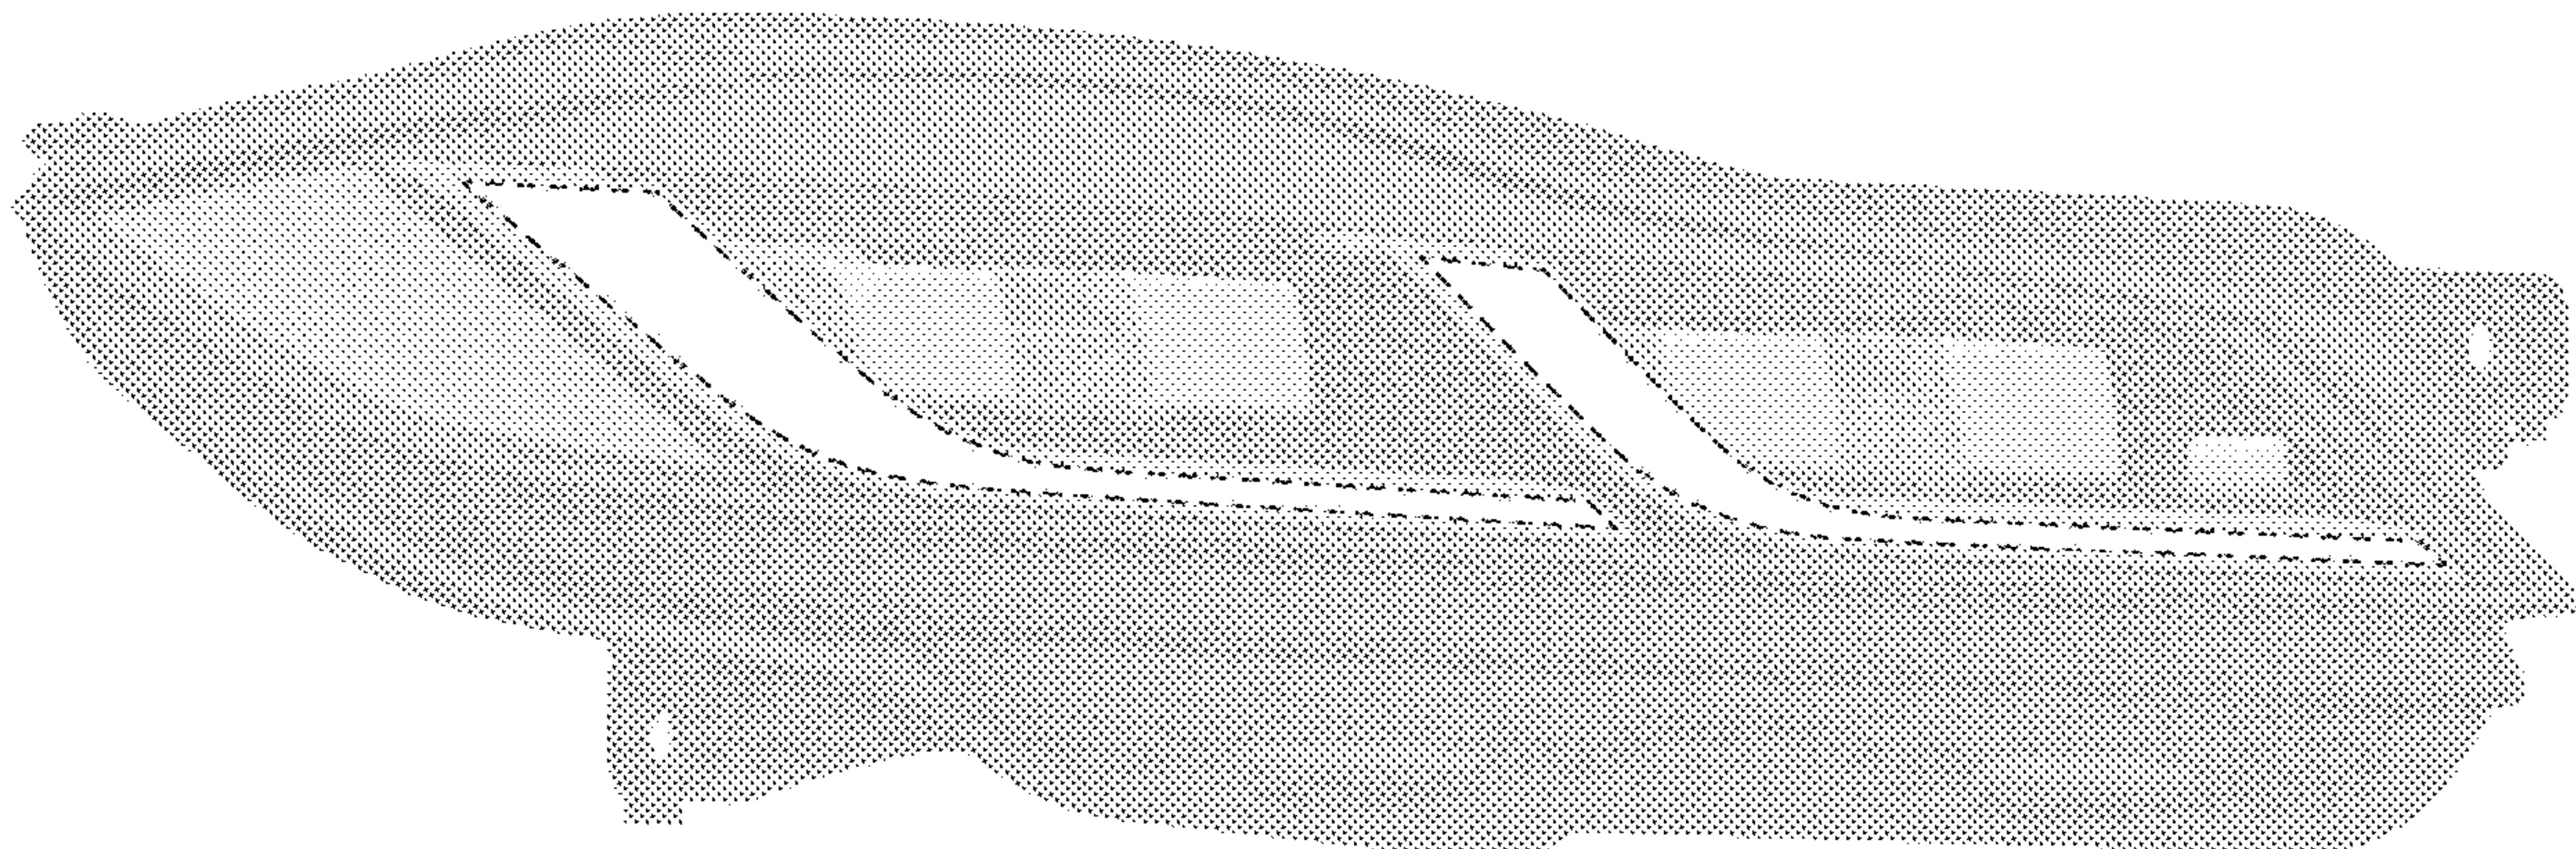

FIG. 7 is a rearside perspective view thereof; and,

FIG. 8 is a rear view thereof.

The claim is directed to the interior portions of the vehicle front headlamp that are bounded by the broken lines. The broken lines in the drawings represent the bounds of the claimed design; it is understood that the claimed design extends to the boundary but does not include the boundary.

The part of the image shown in a half-tone outside the broken-line perimeter boundary lines illustrates portions of the vehicle front headlamp that form no part of the claimed design. A second embodiment is the driver-side vehicle front headlamp which is a mirror image of this passenger-side vehicle front headlamp shown in the drawings.

1 Claim, 8 Drawing Sheets
