(57) **CLAIM**

We claim, the ornamental design for a dual-action coupler with a rotatable release arm, as shown and described.

DESCRIPTION

FIG. **1** is a left side perspective view of a dual-action coupler with a rotatable release arm in a rotated left-side position;
FIG. **2** is a left side elevation view of the dual-action coupler of FIG. **1**;
FIG. **3** is a right side elevation view of the dual-action coupler of FIG. **1**;
FIG. **4** is a bottom view of the dual-action coupler of FIG. **1**;
FIG. **5** is a top view of the dual-action coupler of FIG. **1**; and
FIG. **6** is a front view of the dual-action coupler of FIG. **1**;
FIG. **7** is a rear view of the dual-action coupler of FIG. **1**;
FIG. **8** is a left side perspective view of the dual-action coupler of FIG. **1** with the rotatable release arm in a rotated right-side position;
FIG. **9** is a left side elevation view of the dual-action coupler of FIG. **8**;
FIG. **10** is a right side elevation view of the dual-action coupler of FIG. **8**;
FIG. **11** is a bottom view of the dual-action coupler of FIG. **8**;
FIG. **12** is a top view of the dual-action coupler of FIG. **8**;
FIG. **13** is a front view of the dual-action coupler of FIG. **8**; and,
FIG. **14** is a rear view of the dual-action coupler of FIG. **8**.
The portions of the dual-action coupler with a rotatable release arm shown in broken lines depict environmental subject matter only and form no part of the claimed design.
