(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image of the claimed design;

FIG. 2 is a second image thereof; and,

FIG. 3 is a third image thereof.

The outermost dashed lines in FIGS. 1-3 show a display screen or portion thereof and form no part of the claimed design. The other dashed lines show portions of the graphical user interface that form no part of the claimed design. The dot-dash broken lines in FIGS. 1-3 show boundaries and areas within the dot-dash broken lines that form no part of the claimed design.

The appearance of the animated image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another form no part of the claimed design.
