(57) **CLAIM**
The ornamental design for a portion of a recoil cover for an internal combustion engine, as shown and described.

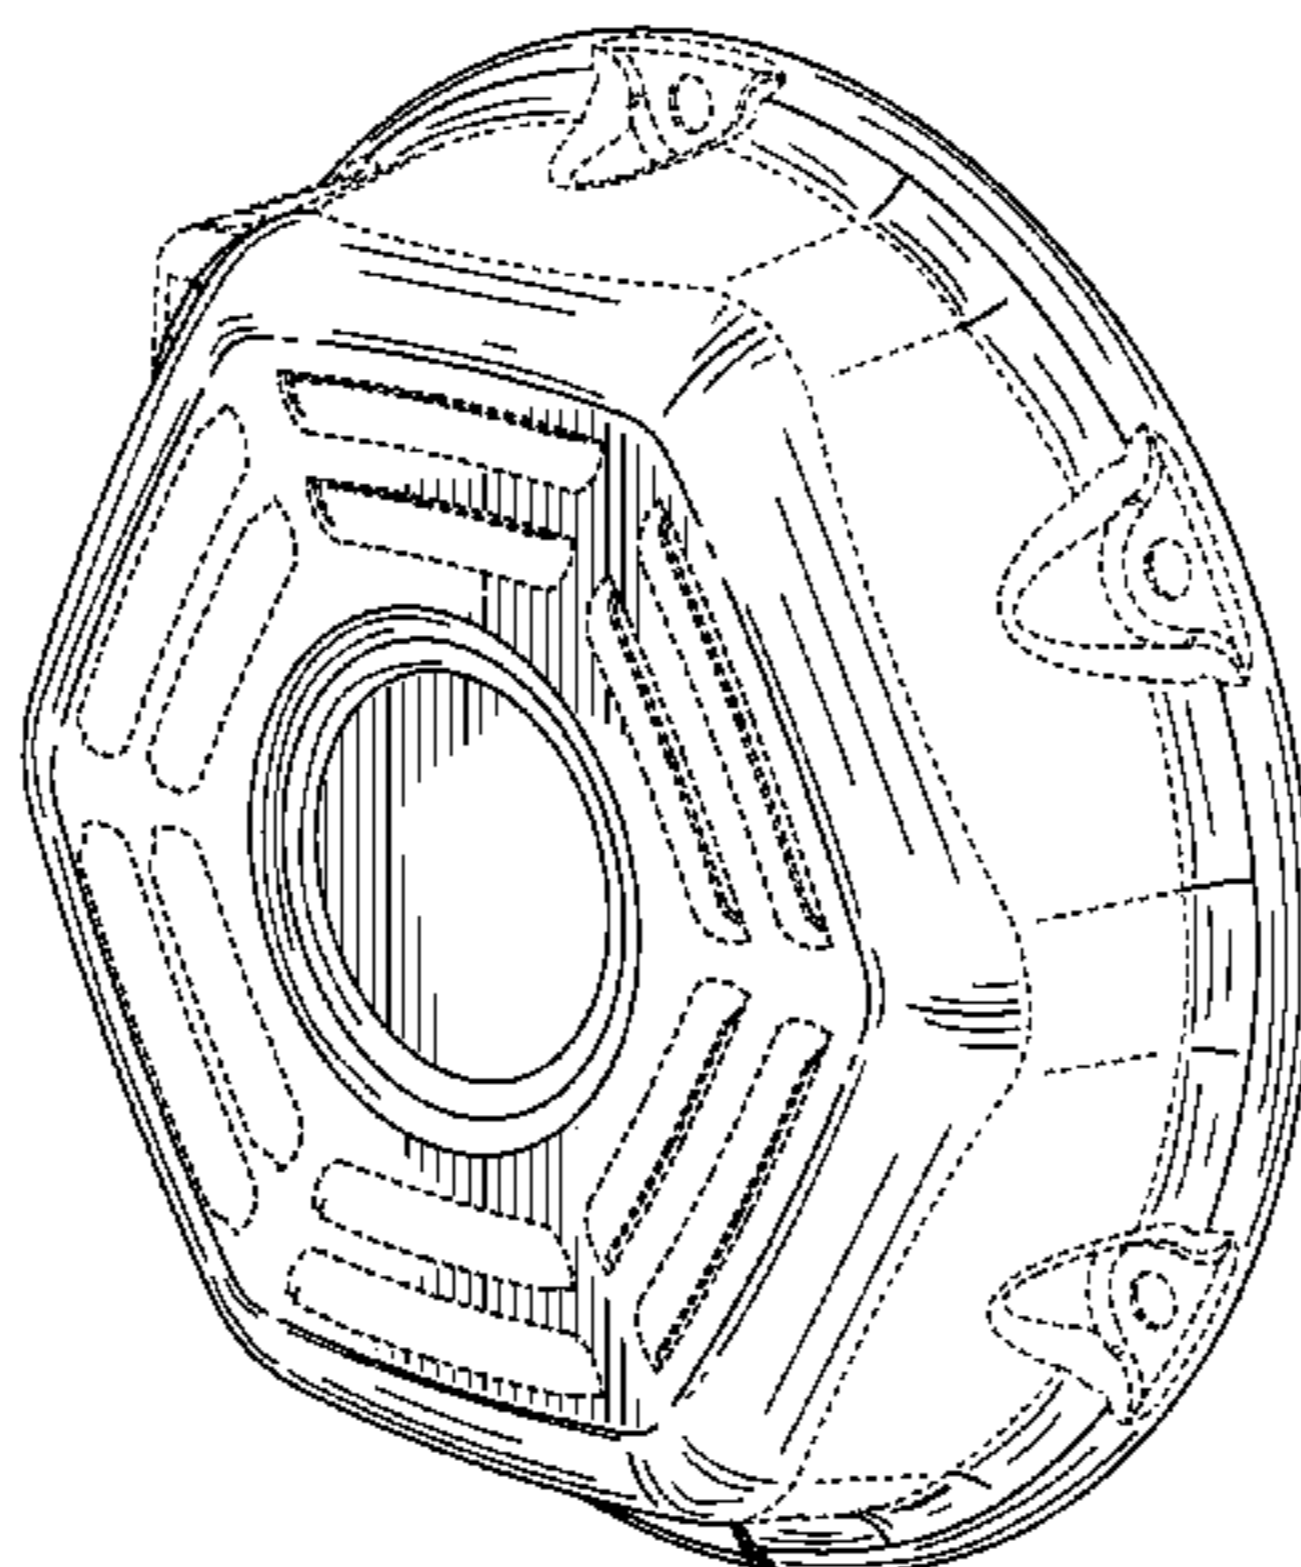

DESCRIPTION

FIG. 1 is a perspective view of a portion of a recoil cover for an internal combustion engine according to [an] *first* embodiment of the present design;

FIG. 2 is a front elevation view of the portion of a recoil cover for [an] *the* internal combustion engine shown in FIG. 1; FIG. 3 is a top plan view of the portion of a recoil cover for [an] *the* internal combustion engine shown in FIG. 1; FIG. 4 is a bottom plan view of the portion of a recoil cover for [an] *the* internal combustion engine shown in FIG. 1; FIG. 5 is a right side elevation view of the portion of a recoil cover for [an] *the* internal combustion engine shown in FIG. 1; [and,] FIG. 6 is a left side elevation view of the portion of a recoil cover for [an] *the* internal combustion engine shown in FIG. 1[.]; FIG. 7 is a perspective view of a portion of a recoil cover for an internal combustion engine according to a second embodiment of the present design; FIG. 8 is a front elevation view of the portion of a recoil cover for the internal combustion engine shown in FIG. 7; FIG. 9 is a top plan view of the portion of a recoil cover for the internal combustion engine shown in FIG. 7; FIG. 10 is a bottom plan view of the portion of a recoil cover for the internal combustion engine shown in FIG. 7; FIG. 11 is a right side elevation view of the portion of a recoil cover for the internal combustion engine shown in FIG. 7; FIG. 12 is a left side elevation view of the portion of a recoil cover for the internal combustion engine shown in FIG. 7; FIG. 13 is a perspective view of a portion of a recoil cover for an internal combustion engine according to a third embodiment of the present design; FIG. 14 is a front elevation view of the portion of a recoil cover for the internal combustion engine shown in FIG. 13; FIG. 15 is a top plan view of the portion of a recoil cover for the internal combustion engine shown in FIG. 13; FIG. 16 is a bottom plan view of the portion of a recoil cover for the internal combustion engine shown in FIG. 13; FIG. 17 is a right side elevation view of the portion of a recoil cover for the internal combustion engine shown in FIG. 13; and FIG. 18 is a left side elevation view of the portion of a recoil cover for the internal combustion engine shown in FIG. 13. The broken lines shown in FIGS. 1-[6] 18 are for illustrative purposes only and form no part of the claimed design.
